

**COE 201**  
**Computer Proficiency**  
**Lebanese American University**  
**School of Engineering and Architecture**  
*Assignment #3* *Spring 2013*

## **Presentations**

### **Requirements:**

You are required to prepare a short presentation about one of the following topics in the computer and technology field:

- ❖ Intel multicore processors.
- ❖ NVidia graphics cards.
- ❖ Microsoft's Windows 8 operating system.
- ❖ Linux's Mint13 operating system.
- ❖ Android smartphone operating system
- ❖ iOS operating system for apple devices
- ❖ Samsung S generation.
- ❖ Apple's Iphone5
- ❖ Any related topic, provided that you need to inform me about it by email.

The presentation should include an introduction, a brief history of this technology, and some of its important features summarized in a clear way. The presentation should also include a comparison with that technology's competitor.

### **Presentation Requirements:**

- The presentation should be at least 20 slides long.
- The presentation should include pictures, tables, and graphs.
- The presentation should include some animation. But do **not** overdo it.
- The presentation should have slide transitions.

### **Note:**

The deadline for this assignment is extended till Thursday March 28, 2013
