

American University of Beirut  
Department of Political Studies and Public Administration  
Fall 1996-7  
Final Exam

Course Number: PSPA 213  
Course Title: Survey of International Relations  
Prof.: M. Nehme

Treat only one of the following questions

1. Based on your understanding of the different levels of analysis in the study of international relations, how relevant do you think it is to study the role, and the individual to understand decision making of foreign policy and world politics.

2. Realists assert that there is a formal anarchy in the international system (the absence of central authority with coercive power). Transnationalists, however, insist that there is actually also much order.

Assess this difference between these two schools and indicate what are the factors that bring or could bring about cooperation, coordination, collaboration and order in the international system.

Good Luck
